HOW THE SOUTH HAS HELPED BEAT THE KAISER

PUSH THE CATTLE TICK OFF THE MAP

1918 a Record Year in Eradication—79,217 Square Miles Freed—
458,529 Square Miles, 63 Per Cent of Entire Tick-
Infested Area, Has Been Released from
Quarantine Since 1906.

The white area below the heavy line shows where the people have dipped out the deadly bloodsucking parasite and freed their territory from Federal quarantine. California, since 1916 free from quarantine, is not shown here.

More Territory to Conquer—270,036 Square Miles,
Shown in Black, Still Tick Infested—Set
a New Record in 1919.

DIP THAT TICK—MAKE NO PEACE WITH THIS ENEMY.
